TechFlow Virtual Corporate Card Platform

Product Overview

Introduction

TechFlow is a next-generation B2B fintech solution designed to eliminate manual expense processes, reduce financial overhead, and empower finance teams with real-time visibility. Our virtual corporate card platform enables businesses to streamline expense management while giving employees smarter ways to pay for business costs.

Key Features

1. Instant Virtual Card Issuance

- Create unlimited virtual corporate cards on demand.
- Assign cards to employees, teams, or projects in seconds.
- Set custom spend limits, categories, and expiration dates for better control.

2. Real-Time Expense Tracking

- Monitor every transaction as it happens.
- Automatically categorize expenses for reporting.
- Reduce the risk of lost receipts with mobile capture and automatic matching.

3. Seamless Accounting Integrations

- Connect with leading systems like QuickBooks, Xero, and NetSuite.
- Sync transactions instantly to eliminate manual reconciliation.
- Ensure compliance with built-in audit-ready reporting.

Benefits

- **Time Savings:** Finance teams save 15+ hours per week by automating expense reporting.
- **Cost Control:** Set rules and monitor spend to prevent overspending or misuse.
- **Employee Empowerment:** Staff get the flexibility to make necessary purchases without bottlenecks.
- **Scalability:** Whether you're a 20-person startup or a multinational enterprise, TechFlow adapts to your needs.

Who Benefits

- **Controllers & Finance Managers** – gain full budget visibility and forecasting accuracy.
- **Staff Accountants & AP Teams** – spend less time chasing receipts and reconciling statements.
- **Office Managers** – distribute cards quickly for supplies, travel, and events.
- **Project Managers** – track project-specific expenses in real-time.
- **IT Teams** – manage recurring software and subscription payments effortlessly.

Security & Compliance

- PCI-DSS compliant infrastructure.
- Multi-factor authentication and role-based access controls.
- Built-in compliance tools for audits, approvals, and policy enforcement.

Why TechFlow

Unlike legacy corporate cards or manual expense systems, TechFlow combines the flexibility of virtual payments with automation that reduces friction for both employees and finance teams. Companies using TechFlow have reported:

- **80% reduction in expense processing time**
- **40% faster month-end closing**
- **Significant cost savings from reduced overspending and policy violations**

Availability

TechFlow is available to businesses across North America and Europe, with global rollout planned for 2026. Pricing is subscription-based and scales with company size and transaction volume.
